

EC 380: Instructions for Shopkeepers

Instructions

- At the start of each round, you will be given a packet with goods and currency.
- You will distribute the currency to each team as evenly as possible.
- The goods are your store stock and you are tasked with selling them during each round.
- Before the buying/selling starts, you will fill out your respective **Distribution Table** with the amount of goods and currency for that round.
- I anticipate that it may become chaotic with people trying to purchase things all at once, you are the ultimate authority on your sales.
- **Your primary incentive is to make as much profit as possible**

.....

FOR YOUR EYES ONLY: SECRET INSTRUCTIONS

There will be different pricing structures for each round.

Round	PINK ECONOMY	WHITE ECONOMY
01	1 good = 1 currency	1 good = 1 currency
02	1 good = 1 currency	1 good = 1 currency
03	1 good = 1 currency	Price is determined by Supply and Demand
04	1 good = 1 currency	Price is determined by Supply and Demand
05	1 good = 1 currency	Price is determined by Supply and Demand
06	1 good = 1 currency	Price is determined by Supply and Demand

- You will receive either small chocolates, M&Ms, or Skittles/Starburst
- The small chocolates and the M&Ms are relatively less desirable as they are simple/plain
- The Skittles/Starburst are relatively more desirable as they are flavorful and different
